

**Finished your degree? Want to be a teacher? If yes...**

**Chuuk Department of Education wants to hear from you NOW**

The Chuuk Department of Education is currently recruiting graduates for teaching positions in public elementary and secondary schools across each of Chuuk State's five regions. These positions are available for immediate employment.

#### **BENEFITS**

An attractive employment package is on offer. It includes airfares to Chuuk, housing for teachers placed in a school away from family, and incentive money for teachers willing to go to 'hard to fill' schools. Teaching experience may attract a higher level of remuneration.

A Bachelor's degree and demonstration of teaching excellence could be a fast track to a school leadership position, with even higher rewards.

Associate of Arts or Science degree holders are eligible for degree upgrading programs in Chuuk.

#### **APPLICATION INFORMATION**

Only degree holders can be employed in public schools in the Federated States of Micronesia.

If you are a degree holder – Chuukese or non-Chuukese – we want to hear from you!

Attached is an electronic teacher application form.

Interviews by Skype or phone will be held at the earliest possible date.

If you know of other graduates who are seeking a teaching position please feel free to email or share this information with them.
